What skills or knowledge did you learn or improve from this instructor?: Emmanuella Kyei Manu

- I was able to learn more from attending Emmanuella's section than lecture.
- Supplemental econ knowledge to what we learned in lecture.
- The review slides were amazing and helped me better understand the learning modules.
- This instructor was very helpful in summarizing the week's material and allowing a smoother digestion of material.
- How to draw graphs
- I learned more of the nuances that we didn't cover in the lectures and how to solve problems that would be on the psets and midterms.
- Economic modeling abilities and intuition
- She really gave a great idea of how to apply what we learned in lecture to real world scenarios and questions we may find on exams.
- I understood concepts from lecture a lot better, as well as how to apply theory to practice problems.
- Intuition building, clarifying content, general Econ support
- recapping the topics covered in lecture
- Knowledge of econ and deeper understanding of how it works
- Nothing in particular.
- I learned that a bad score is not the end of the world. After receiving a not so good score on my midterm, Emmanuella had a personal appointment with me and we discussed about what to do next so I could have a good successful rest of the quarter. I have gained a deeper understand of econ particularly in micro where I struggle the most.
